2017 SB Hay & Feed. All rights reserved. Site by Sectaric

You will be directed back to this site. Go through the same process by clicking Registration at the top, and then the shipping and billing addresses link.

Once you end up back at this page, click Add New Product

The screenshot shows the 'Add new product' page in a WooCommerce admin interface. The main content area is divided into two sections: 'Product short description' and 'Product data'. The 'Product data' section is expanded to show the 'General' tab, which includes fields for 'Regular price (\$)', 'Sale price (\$)', 'Tax status' (set to 'Taxable'), and 'Tax class' (set to 'Standard'). There are also checkboxes for 'Virtual' and 'Downloadable'. The right sidebar contains several sections: 'Publish' (with 'Save Draft' and 'Preview' buttons), 'Status: Draft', 'Visibility: Public', 'Catalog visibility: Shop and search results Edit', 'Readability: Not available', 'SEO: Not available', and a 'Submit for Review' button. Below these are 'Product categories' (with a list of categories like Alfalfa, Bermuda, Brome, Clover, CRP, Fescue, Grass) and 'Product tags' (with an 'Add' button). At the bottom of the sidebar are 'Product image' (with a 'Set product image' link) and 'Product gallery' (with an 'Add product gallery images' link). The top left shows the breadcrumb 'SB Hay and Feed > New' and the user name 'Howdy, tommy'.

From here, fill out all this information. Make sure you click through General, Inventory, Shipping, Linked Products, Attributes, and Advanced. Also fill in the right column to the best of your ability. Click Submit for Review
